

NISHANT GAWADE

Leeds, UK (Open to Relocation) | +44 7554 729920 | nishantgawade02@gmail.com | LinkedIn Profile
Junior Data Analyst | Dashboard & Reporting | Data Quality & Trend Analysis

Professional Summary

Graduate Data Analyst with an M.Sc. in Business Analytics and Decision Sciences, experienced in building performance dashboards, cleaning large-scale datasets, and translating complex analytical outputs into clear, actionable business reporting. Proficient in Power BI and Advanced Excel; actively developing SQL capability. Comfortable working independently and collaboratively across departments to uphold data quality, maintain accurate records, and support data-driven decision-making in fast-paced environments.

Core Competencies

Functional Skills

Dashboard Design & Reporting, Data Quality & Accuracy, Large Dataset Handling, Trend Analysis & Forecasting, Stakeholder Communication, Cross-functional Collaboration, Requirements Gathering

Technical Tools

Power BI (Dashboards & Reports), Excel (Advanced: Pivot Tables), Python (Pandas, Scikit-learn), R (Statistical Modelling), SQL (In Development), Microsoft Office Suite

Work Experience

Social Media Data Analyst | Venus Tours, Mumbai, India

Jan 2021 – Jul 2023

- Analysed customer engagement and campaign performance using Excel and Power BI, driving a **28% improvement** in client reach across 15+ campaigns.
- Consolidated and cleaned multi-source datasets to uphold reporting accuracy, directly supporting data quality and reliability across business operations.
- Designed performance dashboards and process documentation, **reducing monthly reporting time by 20%** and enabling faster access to business-critical insights.
- Collaborated with operations and design teams to align communication strategies, increasing online visibility by **35%**.
- Gathered customer requirements to tailor event experiences, raising satisfaction scores by **25%**.

Analytical Projects

Valorant Esports — Consumer Behaviour & Segmentation Research

Apr 2025 – Aug 2025

Dissertation Project — University of Leeds | Grade: Distinction

- Segmented an active player user base using K-means clustering in Python, defining distinct engagement profiles to support targeted strategic recommendations.
- Validated behavioural relationships across survey data from **72 participants** by executing regression, mediation, and moderation analysis, ensuring analytical reliability.
- Delivered a structured research report translating complex statistical findings into clear, actionable recommendations — demonstrating direct applicability to business reporting and stakeholder communication.

ICO Fundraising Success Prediction — Machine Learning Pipeline

Feb 2025 – Apr 2025

University of Leeds

- Standardised data quality across a **24-feature dataset of 6,000+ records** through end-to-end feature engineering, outlier handling, and normalisation, ensuring dataset reliability for downstream analysis.
- Engineered a predictive classification pipeline using XGBoost with 5-fold cross-validation, achieving an **AUC of 0.71** to identify key drivers of fundraising success.
- Synthesised model outputs into a structured analytical report, highlighting the most commercially significant predictors to support investment risk assessment.

Forecasting US Personal Consumption Expenditures

Jan 2025 – Apr 2025

University of Leeds

- Modelled macroeconomic demand trends by building and benchmarking ARIMA and ETS time-series models in R, evaluated against MAE and RMSE performance metrics.
- Optimised model selection by identifying an ARIMA (5,1,2) configuration that outperformed all baseline approaches, delivering statistically validated forecasting accuracy.
- Visualised a **12-month consumption forecast** via a Power BI dashboard, enabling clear communication of trend insights to support strategic planning and resource allocation.

Education

M.Sc. Business Analytics and Decision Sciences

Sep 2024 – Sep 2025

University of Leeds, Leeds, UK — Merit (Dissertation Grade: Distinction)

B.E. Information Technology

Feb 2021 – Aug 2024

University of Mumbai, Mumbai, India

Certifications

Microsoft Power BI Desktop for Business Intelligence (Maven Analytics) | Microsoft Office Specialist: Excel Associate (Microsoft 365)
